

# YCX 0.8 SMART CHARGER

## STATE OF THE ART CHARGING FOR SMALLER BATTERIES

The YCX 0.8 – Yuasa's smallest state of the art Smart Charger. Perfect for charging smaller 12V batteries including motorcycles, jet skis, ATVs and lawnmowers. Suitable for maintenance charging 'normal-sized' car, LCV and leisure batteries.

- 6 stage fully automatic charging and maintenance for maximizing battery life and performance
- Patented maintenance charge function for extended life and performance
- Patented desulphation function that extends the battery life
- Non-sparking, short-circuit proof and reverse-polarity protected
- Automatic detection of failing and end-of-life batteries requiring replacement
- Robust, water-resistant construction for use in all weathers

**5 YEAR** WARRANTY

### TECHNICAL DATA

CHARGING VOLTAGE	14.4VDC
CHARGING CURRENT	0.8A max
TYPE OF CHARGER	6-stage, fully automatic charging
TYPE OF BATTERY	12V lead-acid batteries
BATTERY CAPACITY	1.2 – 32Ah, up to 100Ah for maintenance
INSULATION	IP65 (splash and dust proof)

# YCX 0.8 6V SMART CHARGER

## UNIQUE 6V CHARGING FOR VINTAGE VEHICLES

The YCX 0.8 6V – Specialist charging for older and vintage vehicles.

- 4 stage fully automatic charging and maintenance for maximizing battery life and performance
- Patented maintenance charge function for extended life and performance
- Patented desulphation function that extends the battery life
- Non-sparking, short-circuit proof and reverse-polarity protected
- Automatic detection of failing and end-of-life batteries requiring replacement
- A range of accessories for use with different battery connector types
- Robust, water-resistant construction for use in all weathers

**5 YEAR** WARRANTY

### TECHNICAL DATA

CHARGING VOLTAGE	7.2V
CHARGING CURRENT	0.8A max
TYPE OF CHARGER	4-stage, fully automatic charging
TYPE OF BATTERY	6V lead-acid batteries
BATTERY CAPACITY	1.2–100Ah
INSULATION	IP65 (splash and dust proof)

## SMART CHARGER ACCESSORIES

## STATE OF CHARGE INDICATOR

- Simple Connection
- Flashing 'traffic light' system to show battery state of charge
- Compatible with all Yuasa Smart Chargers up to 10A
- Quick, easy and safe way to check battery condition
- Low back current drain (<1Ah/month)
- 550mm cable length

**1 YEAR** WARRANTY

# AUTOMOTIVE & MOTORCYCLE BATTERY CHARGERS

The new range of Smart Battery Chargers from Yuasa, the world's leading battery manufacturer.

- Intelligent (SMART) charging
- Reverse connection protection
- Spark proof connection
- Safe on-vehicle charging
- Suitable for new technology AGM and EFB batteries
- 4, 6 or 8 charging phases

## YCX 25L SMART CHARGER

**PROFESSIONAL BATTERY CARE  
CONTINUOUS 13.6V POWER FEED**

*The Yuasa YCX 25L – Workshop Smart Charger. Quick and simple charging to rectify battery related problems.*

- 8 stage, temperature compensated, fully automatic charging and maintenance for extended battery life and performance
- Continuous 13.6V power feed function, allows battery removal/ replacement without loss of vehicle memory settings
- Patented maintenance charge function for extended life and performance
- Reconditioning function for deep discharged batteries
- Patented desulphation function that extends the battery life
- Non-sparking, short-circuit proof and reverse-polarity protected
- Automatic diagnostics of failing and end-of-life batteries requiring replacement

**2 YEAR WARRANTY**

### TECHNICAL DATA

CHARGING VOLTAGE	14.4 / 15.8 / 13.6V
CHARGING CURRENT	Max 25A
TYPE OF CHARGER	8-stage, fully automatic charging cycle
TYPE OF BATTERY	12V lead-acid batteries
BATTERY CAPACITY	40 – 500Ah
INSULATION	IP44 (outdoor use)

## YCX 10 SMART CHARGER

**PROFESSIONAL STANDARD CHARGER  
CONTINUOUS 13.6V POWER FEED**

*The Yuasa YCX 10 Smart Charger. Professional standard charger, ideal for cars, and leisure battery applications including caravans and boats.*

- 8 stage, temperature compensated, fully automatic charging and maintenance extending battery life and performance
- Continuous 13.6V power feed function, allows battery removal/ replacement without loss of vehicle memory settings
- Patented maintenance charge function for extended life and performance
- Reconditioning function for deep discharged batteries
- Patented desulphation function that extends the battery life
- Non-sparking, short-circuit proof and reverse-polarity protected
- Automatic detection of failing and end-of-life batteries requiring replacement
- Robust, water-resistant construction for use in all weathers
- A range of accessories for multiple battery use adaptation

**2 YEAR WARRANTY**

### TECHNICAL DATA

CHARGING VOLTAGE	14.4 / 14.7 / 15.8 / 13.6V
CHARGING CURRENT	Max 10A
TYPE OF CHARGER	8-stage, fully automatic charging cycle
TYPE OF BATTERY	12V lead-acid batteries
BATTERY CAPACITY	20 – 200Ah, up to 300Ah for maintenance
INSULATION	IP65 (splash and dust proof)

## YCX 5.0 SMART CHARGER

**NEW GENERATION TECHNOLOGY  
FOR THE CONSUMER**

*The Yuasa YCX 5.0 – state of the art Smart Charger. Identifies and rectifies battery-related problems including high demand AGM batteries.*

- 8 stage, temperature compensated, fully automatic charging and maintenance extending battery life and performance
- Patented maintenance charge function for extended life and performance
- Reconditioning function for deep discharged batteries
- Patented desulphation function that extends the battery life
- Non-sparking, short-circuit proof and reverse-polarity protected
- Automatic detection of failing and end-of-life batteries requiring replacement
- Robust, water-resistant construction for use in all weathers
- A range of accessories for multiple battery use adaptation, including high demand AGM
- Single charger for the car, motorcycle, leisure vehicles and garden machinery

**5 YEAR WARRANTY**

### TECHNICAL DATA

CHARGING VOLTAGE	14.4 / 14.7 / 15.8V
CHARGING CURRENT	Max 5A
TYPE OF CHARGER	8-stage, fully automatic charging cycle
TYPE OF BATTERY	12V lead-acid batteries
BATTERY CAPACITY	1.2 – 110Ah, up to 160 Ah for maintenance
INSULATION	IP65 (splash and dust proof)
